Select menu

Here you will find the select functionality.

All

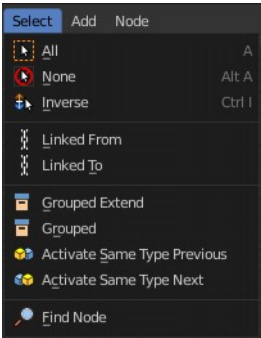

Select everything.

None

Select nothing.

Inverse

Invert the current selection.

Linked From

Select the nodes that are linked from the currently selected nodes. The nodes before in the hierarchy.

Linked To

Select the nodes that are linked to the currently selected nodes. The nodes behind in the hierarchy.

Grouped

Select grouped nodes.

Grouped Extend

Select grouped nodes, and extend from the current selection.

Activate same type previous

Activate same node type before the current selection, step by step.

Activate same type next

Activate same node type after the current selection, step by step.

Find Node

This button will open a search dialog where you can search for node types and select them in the current hierarchy.
