### Marker Options panel

#### Lock Markers

Prevent marker editing.

#### Sync Markers

Transform markers with the strips.

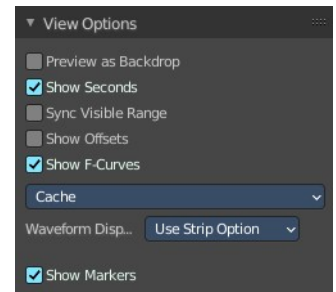

### View Options panel

#### Preview as Backdrop

Display the result as a backdrop under the strips.

#### Show Seconds

Show the timing in the timeline area in seconds instead of frames.

#### Sync visible range

Synchronize the visible timeline range with other visible time based editors.

## Show Offsets

Display strip in/out offsets.

## Show F-Curves

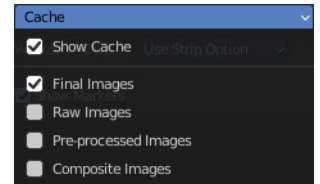

Display the strip opacity/Volume curve.

## Cache

Cache settings.

## Show Cache

Visualize cached images in the timeline.

## Final Images

Show the final images.

## Raw Images

Show the raw images.

## Pre Process Images

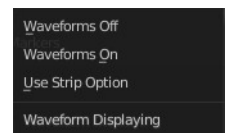

Show the pre process images.

## Composite Images

Show the composite images.

## Waveform Display

How wave forms are drawn.

## Show Markers

Display the markers menu and the markers at the bottom in the timeline.
