### Marker Options panel

#### Lock Markers

Prevent marker editing.

#### Sync Markers

Transform markers with the strips.

### View Options panel

#### Preview as Backdrop

Display the result as a backdrop under the strips.

When you turn on Preview as Backdrop, then you will activate the View Settings, Frame Overlay and Scene Strip Display panels from the Preview mode. Please have a look there for the descriptions.

## Show Seconds

Show the timing in the timeline area in seconds instead of frames.

## Sync visible range

Synchronize the visible timeline range with other visible time based editors.

## Cache

Cache settings.

### Show Cache

Visualize cached images in the timeline.

### Final Images

Show the final images.

### Raw Images

Show the raw images.

### Pre Process Images

Show the pre process images.

### Composite Images

Show the composite images.

## Show Markers

Display the markers menu and the markers at the bottom in the timeline.
