Dopesheet Editor - Sidebar

The sidebar contains further options.

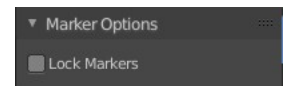

It is closed by default. You have to reveal it first.

Sidebar - View Tab - Marker options panel

Lock Markers

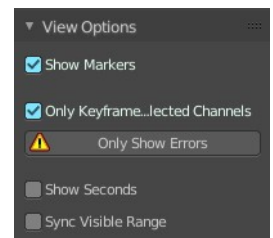

Make the markers uneditable.

Sidebar - View Tab - View options panel

Show Markers

Display the markers row at the bottom of the view.

Only keyframes from selected channels

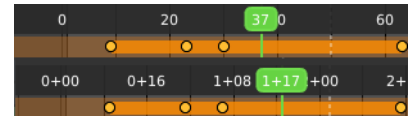

Just show the keyframes from the selected object.

Only show errors

Only include f-curves that are disabled or have errors.

Show Seconds

Show the timing in the timeline area in seconds instead of frames.

Sync visible range

Synchronize the visible timeline range with other visible time based editors.

Sidebar - Cache Tab - Cache panel

Show Cache

Show animation information for cached objects like Particles.

Softbody, Particles, etc.

Include or exclude what kind of cache types you want to display.
