Sculpt Mode

In Sculpt mode you can sculpt the grease pencil strokes.

Sculpt Mode - Brushes Panel

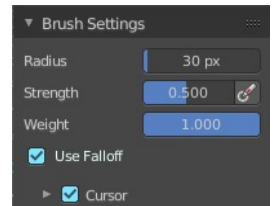

Brush browser

Pick a pencil, and see what pencil is active.

Sculpt Mode - Brush Settings Panel

The brush settings panel has different content, dependent of what brush is selected. And not all setting shows with all tools. The sculpt strokes sub panel for example shows just with the smooth and randomize brush.

Radius

The radius of the brush.

Strength

The strength of the brush.

Weight

The target weight. Everything below gets added towards this value. Everything above gets subtracted from this value. Usually you work with the maximum value of 1.

Use Falloff

Use Falloff for the brush.

Add / Subtract

Thickness and Strength brush. If this brush should add or subtract to the sculpt surface.

Clockwise/Counter Clockwise

Twist brush. If the twist goes clockwise or counter clockwise.

Pinch / Inflate

Pinch brush. If the brush should pinch or inflate.

Sculpt Strokes sub panel

Affect Position

The brush affects the position of the point.

Affect Strength

The brush affects the color strength of the point.

Affect Thickness

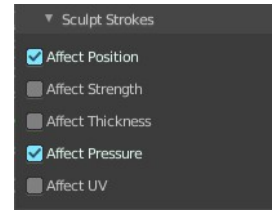

The brush affects the thickness of the point.

Affect Pressure

The brush affects the pressure values as well when smoothing strokes.

Affect UV

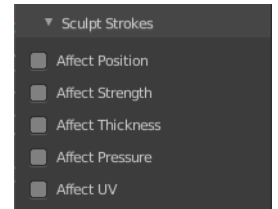

The brush affects the UV rotation of the point.

Sculpt Mode - Brush Settings Panel - Sculpt Strokes Sub panel

Affect Position, Strength, etc.

Make the strokes affect the listed items too.

Sculpt Mode - Brush Settings Panel - Cursor Sub panel

Show Brush

Show the brush icon when painting.

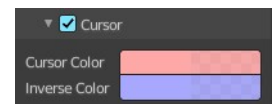

Cursor Color

The brush icon color with adding.

Inverse Color

The brush icon color with subtracting.

Inverse color does not show with all brushes. Just with Pinch for example.

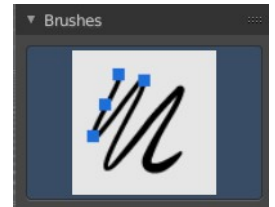

Grease Pencil - Weight Paint Mode

In Weight Paint Mode you can weight paint your strokes.

Weight Paint Mode - Brushes Panel

Brush browser

Pick a pencil, and see what pencil is active. There is just one pencil available for weight painting.

Weight Paint Mode - Brush Settings Panel

Radius

The radius of the brush.

Strength

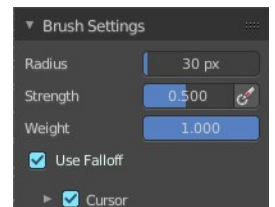

The strength of the brush.

Weight

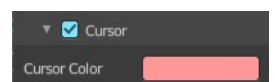

The target weight. Everything below gets added towards this value. Everything above gets subtracted from this value. Usually you work with the maximum value of 1.

Use Falloff

Use Falloff for the brush.

Weight Paint Mode - Brush Settings Panel - Cursor Sub panel

Show Brush

Show the brush icon when painting.

Color

The brush icon color.
