Image Editor - View Menu

The View menu contains all View related tools.

Toolbar

Shows or hides the tool shelf at the left.

Sidebar

Shows or hides the sidebar at the right in the viewport

Tool Settings

Shows or hides the tool settings above the header in the 3D view.

Adjust Last Operation

Shows or hides the Adjust Last Operation panel down left.

Note that the Adjust Last Operation menu item in the Edit menu in the main header and the Last button in the toolbar are not related and not functional with this last operator panel. It is an independent element.

View Zoom In

Zooms into the viewport.

View Zoom Out

Zooms out of the viewport.

Zoom Border

Draws a rectangle and zooms then to fit the size of this rectangle.

Zooming in is done with drawing the rectangle with left mouse button. Zooming out is done with drawing the rectangle with middle mouse button.

Fractional Zoom

A sub menu where you can choose between predefined zoom factors.

View Selected

View Selected centers the view at the currently selected UV mesh parts.

View All

View all zooms in or out in the viewport until all objects in the scene are displayed fitting in the viewport.

View Fit

Zooms out or in to fit the image to the viewport.

Center View to Cursor

Centers the view to the 2D cursor.

Area

This menu contains general view functionality. And exists in most other editor types too.

Horizontal Split

Splits the current view horizontally into two independent editor windows.

Vertical Split

Splits the current view vertically into two independent editor windows.

Duplicate Area into New Window

Duplicate Area into New Window makes the selected editor window floating. You can then drag it around at the monitor. It is not connected with the rest of the UI anymore.

A separated window cannot be merged into the main window again. You have to close it when not longer needed.

Toggle Maximize Area

Displays the editor maximized with menus.

To return from the maximized view press hotkey ctrl + spacebar. Or reuse the menu item in the area menu.

Toggle Full screen Area

Displays the editor maximized without menus.

To return from the full screen view press hotkey ctrl + alt + spacebar.
