Animation tab - Pose Library Panel

The Animation tab contains currently the pose library settings.

Create Pose Asset

This button becomes active with a armature in pose mode. It allows you to insert the current pose into the Asset browser, to reuse it at a later point.

Copy Pose as Asset

Copy the current pose as an asset, which can then be pasted into an asset library.

Active Asset Library

Which asset library to use. A custom one, or the built in asset lib. Default is the built-in called Current File.

List of Asset Poses

The list of available asset poses.

Search Field

You can expand a search field at the bottom of the list. Type in your term and hit enter to filter for your term.

Invert

Exclude the search term instead of searching for it.

Sort by Name

Sort the List by name.
