Toggle Active Scene Strip.....	1
Play Master Scene.....	1

### Text menu

Of interest when you deal with more than one scene. Activate the Sync button.

#### Adjust Timing

Adjust the timing of the active scene interactively.

#### Toggle Active Scene Strip

Updates the active scene to active scene strip.

If synchronization timeline in Sequencer is not set, this toggles the current scene to active scene strip in the sequencer.

#### Play Master Scene

Starts or stops the playback of synchronization timeline.
