## Sculpt Mode

In Sculpt mode you can sculpt the grease pencil strokes.

## Sculpt Mode - Brushes Panel

### Brush browser

Pick a pencil, and see what pencil is active.

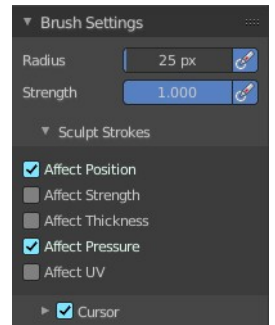

## Sculpt Mode - Brush Settings Panel - Smooth Brush

### Radius

The radius of the brush.

### Strength

The strength of the brush.

### Sculpt Strokes sub panel

#### Affect Position

The brush affects the position of the point.

#### Affect Strength

The brush affects the color strength of the point.

#### Affect Thickness

The brush affects the thickness of the point.

#### Affect Pressure

The brush affects the pressure values as well when smoothing strokes.

#### Affect UV

The brush affects the UV rotation of the point.

## Sculpt Mode - Brush Settings Panel - Thickness Brush

### Radius

The radius of the brush.

### Strength

The strength of the brush.

### Add / Subtract

Thickness and Strength brush. If this brush should add or subtract to the

sculpt surface.

## Sculpt Mode - Brush Settings Panel - Strength Brush

### Radius

The radius of the brush.

### Strength

The strength of the brush.

### Add / Subtract

Thickness and Strength brush. If this brush should add or subtract to the sculpt surface.

## Sculpt Mode - Brush Settings Panel - Randomize Brush

### Radius

The radius of the brush.

### Strength

The strength of the brush.

### Sculpt Strokes sub panel

#### Affect Position

The brush affects the position of the point.

#### Affect Strength

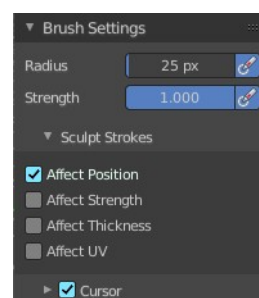

The brush affects the color strength of the point.

#### Affect Thickness

The brush affects the thickness of the point.

#### Affect UV

The brush affects the UV rotation of the point.

## Sculpt Mode - Brush Settings Panel - Grab Brush

### Radius

The radius of the brush.

### Strength

The strength of the brush.

## Sculpt Mode - Brush Settings Panel - Push Brush

### Radius

The radius of the brush.

### Strength

The strength of the brush.

## Sculpt Mode - Brush Settings Panel - Twist Brush

### Radius

The radius of the brush.

### Strength

The strength of the brush.

### Clockwise/Counter Clockwise

If the twist goes clockwise or counter clockwise.

### Pinch / Inflate

Pinch brush. If the brush should pinch or inflate.

## Sculpt Mode - Brush Settings Panel - Pinch Brush

### Radius

The radius of the brush.

### Strength

The strength of the brush.

### Pinch / Inflate

Pinch brush. If the brush should pinch or inflate.

## Sculpt Mode - Brush Settings Panel - Clone Brush

### Radius

The radius of the brush.

### Strength

The strength of the brush.

## Sculpt Mode - Brush Settings Panel - Cursor Sub panel

This subpanel shows with all brushes in the Brush settings panel.

### Show Brush

Show the brush icon when painting.

### Cursor Color

The brush icon color with adding.

### Inverse Color

The brush icon color with subtracting.

Inverse color does not show with all brushes. Just with Pinch for example.

## Grease Pencil - Weight Paint Mode

In Weight Paint Mode you can weight paint your strokes.

## Weight Paint Mode - Brushes Panel

### Brush browser

Pick a pencil, and see what pencil is active. There is just one pencil available for weight painting.

## Weight Paint Mode - Brush Settings Panel

### Radius

The radius of the brush.

### Strength

The strength of the brush.

### Weight

The target weight. Everything below gets added towards this value. Everything above gets subtracted from this value. Usually you work with the maximum value of 1.

### Use Falloff

Use Falloff for the brush.

## Weight Paint Mode - Brush Settings Panel - Cursor Sub panel

### Show Brush

Show the brush icon when painting.

### Color

The brush icon color.

## Sculpt Mode - Options panel

### Auto Normalize

Ensure that all bone deforming vertex groups adds up to 1.0 while weight painting.
